Applewood Centers Children's Aid Society Campus

The Gerson School Difference

The Gerson School is an alternative placement for students whose emotional, social and behavioral struggles have impacted their ability to succeed in a public setting. Many emotionally vulnerable students were hard hit by the pandemic and have had great difficulty adjusting to a normal routine. Chronic sadness, hopelessness, social difficulties and increased anxiety may be leading to school avoidance and truancy issues, disruptive behavior and para-suicidal behaviors. Gerson School can help get students back on track through academic and mental health support. Currently offering grades 6-12, we will be expanding to grades 4 and 5 in Fall 2023. At Gerson, we'll get your students re-engaged and on the path toward graduation.

Attend our District Open House to learn how The Gerson School can benefit students in your school district!
